"The absence of rigidity in standards of morality makes for relatively few offenses in the realm of sex. Such crimes as incest and rape are rare. When they do occur, they are believed to be followed by an automatic supernatural sanction; the offender becomes sick or dies. Adultery, on the other hand, is common, and if committed discreetly frequently goes unpunished. If adultery occurs too often, however, an irate husband casts out his wife and she becomes subject to public ridicule. She is accused of being ečimbási, i.e., of having too strong sex desires."
